God Bless You

January 18, 2010

This is an email that I just received a few minutes ago from Pastor Ronald in Haiti. I don't have to say anything else: he's said it all.

Dear Carol,

It was so good to talk to you! I'm so glad that we have some people God has given us to help us in our difficult time. After I finished talking to you, we feel stronger than before. I'm learning to trust God day after day. As I told you, I never had an experience like this before. God has made a lot of miracles for me.

I want to thank everyone who put hands together to help our brothers and sisters, especially the children. If we didn't have a place like My Father's House Orphanage I don't know what I would do. But God's already knew so he made them leave the old building to go to the brand new orphanage even thou it wasn't completely done. There they were all safe, including the team from Trinity Methodist who were with them.

In this moment the people are in prayer in the school yard. Many people came to Christ, just in one time 40 people came to Jesus. So, we don't stop! We can't do the service the at the church but we can do it in the school yard.

It's true that I'm worried for you because of the situation, but it's a great encouragement for us if you and some Dayspring trustees can come. We are always happy to see you. So, make all possible arrangements.

Make sure to come with something to cover your nose (the one the Doctor use when they make an operation) because of all the dead bodies. The odor in the air won't be good to breathe.

We'll need also bandage and everything, and also medicine for pain and medicine for burns.

There's a Dominican team who came and helped a lot. They opened a medical center in Jimani where they go with the people who has broken arms.

I already had a phone call, I couldn't hear too well, but it's about the group that will come from Dominican Republic. They will call me tonight.

(This is a medical team that Pastor Michael Walker from Church in the City in Denver set up to arrive at the Mission tomorrow.)

When you come we have to be with you just to make sure about the security, because it's a little worse now because of all the prisoners that escaped. After the earthquake everything in Port-au-Prince was broken, including the Jail. So, we have to be with you.

May God bless you!!

Pastor,
Ronald
